List of Programs

On this page, review the list of teacher preparation programs offered by your institution of higher education (IHE) or organization. If you submitted an IPRC last year, this list of programs is pre-loaded from your prior year's report. If your IHE offers both traditional and alternative programs, be sure to enter the programs in the appropriate reports. For the traditional report, list all traditional programs within the IHE. For the alternative report, list all alternative programs within the IHE. You may edit, delete, and insert new rows as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page. The system will automatically total the number of programs for you.

Please provide any additional information about or descriptions of the supervised clinical experiences:

During the pre-professional course, EDCI B100 Clinical Observation and Analysis, candidates completed a 20 hour supervised field experience that is the first in a series of experiences leading up to the clinical internship. During Methods Block I, candidates completed a minimum of 120 field hours. During Methods Block II, candidates completed a minimum of 88 hours. In addition, early childhood candidates completed a minimum of 10 hours with children ages Birth - 3 in EDEC B340 Education of the Young Child. Both early childhood and elementary education candidates completed 10 hours in a special needs classroom in EDEX B300 Exceptional Learner, as well as 22 hours in EDRD B420P Practicum in Emergent Reading, working with a struggling reader on the primary level.

Enrollment

THIS PAGE INCLUDES:

>> [Enrollment](#)

On this page, enter the number of candidates for an initial teaching credential who are enrolled in the initial teacher preparation programs within your institution of higher education (IHE) or organization. **Do not** report on the total number of students enrolled in the entire IHE. **Do not** include individuals who currently hold a teaching credential and are seeking additional licenses or endorsements, or individuals preparing for school-based careers other than classroom teachers (e.g., administrators, guidance counselors).

The Department recognizes that in many cases, candidates voluntarily report their race/ethnicity and gender data, and that in some cases, candidates may choose not to report this information. Please report on the race/ethnicity data you have available, though the data may not be complete. It is not expected that the sum of the enrolled students reported by race/ethnicity or by gender will necessarily equal the total number of students enrolled.

If your IHE offers both traditional and alternative programs, be sure to enter the candidates enrolled in the appropriate reports. For the traditional report, provide only the candidates enrolled in traditional programs within the IHE. For the alternative report, provide only the candidates enrolled in the alternative programs within the IHE.

After entering the enrollment data, save the page using the floating save box at the bottom of the page.

Enrollment

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled. Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2017-18. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2017-18. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Completers

On this page, enter the total number of individuals who completed the program in AY 2017-18 and the two prior academic years. If you submitted an IPRC last year, the number of program completers for the two prior academic years are pre-loaded from your prior year's report.

A program completer is a person who has met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program's requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for initial certification or licensure may not be used as a criterion for determining who is a program completer.

An individual cannot be classified as both enrolled and as a program completer at the same time. An enrolled individual is not a program completer. Once an individual has met all the requirements of a state-approved teacher preparation program and becomes a program completer, the individual is no longer classified as enrolled.

After entering the program completers, save the page using the floating save box at the bottom of the page.

Annual Goals

On this page, review the annual goals in each subject area listed below. If you submitted an IPRC last year, the goals you entered last year are pre-loaded from your prior year's report. Please respond to the questions to report on progress towards the goals, and set new goals for the next academic year.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. ([§205\(a\)\(1\)\(A\)\(ii\)](#), [§206\(a\)](#))

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2017-18

1. Did your program prepare teachers in mathematics in 2017-18?

- Yes
 No (leave remaining questions for year blank)

2. How many prospective teachers did your program plan to add in mathematics in 2017-18?

12

3. Did your program meet the goal for prospective teachers set in mathematics in 2017-18?

- Yes
 No
 Not applicable

4. Description of strategies used to achieve goal, if applicable:

We've had difficulty marketing the secondary mathematics program, so last year faculty presented information about the program to advanced mathematics classes in the local high schools. The program has one student currently and four others preparing for the program.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Academic year 2018-19

7. Is your program preparing teachers in mathematics in 2018-19?

- Yes
 No (leave remaining questions for year blank)

8. How many prospective teachers did your program plan to add in mathematics in 2018-19?

Assurances

Please certify that your institution is in compliance with the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#), [§206\(b\)](#)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

1. Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

The unit works with the Teacher Education Advisory Council (TEAC) in order to ensure collaboration with the state requirements and local needs in the preparation of teachers. Specific courses, key assessments, and seminars are required in order to assure that candidates are prepared to provide instruction for students with special needs, limited English proficiency, and those from low income families. In addition, a 25-hour Youth Experience (Service Learning) requirement is required for all students applying for the professional program. This requirement is waived for students who have completed a Teacher Cadet program. Based on feedback from cooperating teachers and TEAC members and to further prepare students to meet the needs of culturally diverse students, a new course, Cultural Diversity in Education, was required beginning in the 2017-18 school year. This course aims to prepare students for meeting the needs of increasingly diverse students. In this course, students create a personal plan of action for providing equitable educational opportunities for all students. Students will learn the skills needed for culturally responsive classroom practice.

On this page, review the questions regarding your program's approval/accreditation and whether your program has been designated as low performing by the state. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. ([§205\(a\)\(1\)\(D\)](#), [§205\(a\)\(1\)\(E\)](#))

1. Is your teacher preparation program currently approved or accredited?

- Yes
 No

If yes, please specify the organization(s) that approved or accredited your program:

- State
 NCATE
 TEAC
 CAEP
 Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

- Yes
 No

Use of Technology

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Candidates take a required three-credit hour course entitled EDCI B243 Technology Resources for Teaching that focuses on integrating technology in the classroom. Other courses require the use of technology for course presentations (EDEC 342, EDEL 320). Faculty use technology in a variety of ways that include supervised online discussions boards via Blackboard to creating learning experiences using Smart Boards or digital video teaching samples. Candidates are also prepared to use the same technologies that are available in local schools. Key assessments are submitted using LiveText, a central data management system that allows the unit to collect data to improve teaching and learning. The unit's Assessment Coordinator and Accreditation Coordinator use technology to effectively manage and analyze data (Access, LiveText, Banner, etc.). The integration of technology throughout and within the unit is a fundamental part of increasing candidate knowledge, skills, and dispositions in the preparation of teachers for a technological society. Candidates use LiveText to plan lessons and design assessment tools, such as rubrics. This allows the collection and management of student assessment data. The data can be analyzed to improve teaching and learning. During the clinical internship (student teaching), candidates develop and implement a Teacher Work Sample (TWS) that includes a comprehensive two-week unit. The TWS provides evidence of how candidates use technology to integrate technology (using Smart Boards; currently being updated to match the technology in local school districts) into their teaching, collect P-6 student data, develop multiple assessments, analyze P-6 student learning, and reflect upon their own practice to make informed decisions.

Teacher Training

On this page, review the questions about how your program trains general education teachers and special education teachers. For the purposes of these questions, general education teachers means those who are not specifically prepared as special education teachers. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(G\)\)](#)

1. Does your program prepare general education teachers to:

a. teach students with disabilities effectively

- Yes
 No

b. participate as a member of individualized education program teams

- Yes
 No

c. teach students who are limited English proficient effectively

- Yes
 No

2. Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Candidates take a required course entitled EDEX B300 Exceptional Learner in working with students with exceptionalities. In addition, beginning in the pre-professional course, EDCI B100 Clinical Observation and Analysis, pre-candidates are required to learn instructional strategies to work effectively with students who have limited English proficiency and to build on these strategies throughout their methods courses and clinical internship. During the internship (EDEC B469; ELEM 470), interns are required to participate in an Individualized Education Plan team meeting for a student identified with a disability. All lesson plans require candidates to differentiate instruction and plan teaching/learning accommodations or modifications for students with special needs and/or limited English proficiency.

3. Does your program prepare special education teachers to:

a. teach students with disabilities effectively

- Yes
 No
 Program does not prepare special education teachers

b. participate as a member of individualized education program teams

- Yes
- No
- Program does not prepare special education teachers

c. teach students who are limited English proficient effectively

- Yes
- No
- Program does not prepare special education teachers

4. Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

We do not offer a teacher preparation program in special education.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The USCB Department of Education (DOE) is the professional education unit nationally accredited by NCATE. In Spring 2015, we completed our NCATE Legacy onsite visit. The NCATE Board of Examiners and state team recommended that our unit met all six NCATE Standards with no areas for improvement (AFIs). In addition, they recommended that we met the "Target" level on Standard 3: Field Experiences and Clinical Practice. The Department consists of seven full time faculty (including a department chair), five adjunct faculty, and 1 part-time administrative assistant. The vision of the unit "is to serve as the primary resource for both aspiring educators and in-service teachers in the Lowcountry and beyond". The mission of the unit is "to create a legacy of engaged citizen-educators, well-equipped to respond adaptively to a broad range of student needs and primed to serve as advocates for children and young people. We focus on the acquisition of deep content knowledge, strong pedagogical skills, and professional teacher dispositions". The vision of the USCB DOE faculty and staff, supported by the general education faculty and university administration, is to establish USCB as the primary resource for educators and school systems in the Lowcountry. This is accomplished through partnerships with school districts and educators, outreach to the community, and the development of USCB as the recognized source of expertise and activity in education. Our philosophy is, "everything we do as an educator preparation provider -- in our course and fieldwork, our assessments, and our system of candidate progression -- is informed by our core beliefs about learning and the important role teachers play in the learning process. Specifically, we believe that: -learning is constructed by learners in social contexts -- not received passively by them; -learning is more enduring, more in-depth, and more powerful when students are engaged in inquiry and discovery than when they are asked simply to accumulate and memorize information; -learning requires nurturing, supportive and safe classroom spaces; -learning is developmental, and continues throughout the lifespan; -teachers must embrace the richness of student diversity; -teachers must possess deep content knowledge, strong pedagogical skills, and proficiency with educational technology; -teachers must model the pursuit of learning in their own personal life." (Educator Preparation Handbook; https://www.uscb.edu/academics/academic_departments/professional-programs/education/forms_resources/pdfs/handbook_02-11-19.pdf), Specifically, we envision an education unit that educates and trains prospective teachers based on accepted research and developmental practices strengthened by professional preparation experiences in the public schools of the region. We envision faculty who educate and train prospective teachers, are recognized leaders in the educational community, and who add to the knowledge base of education through research. We envision graduates who have the professional knowledge base, pedagogical expertise, and the dispositions to synthesize these abilities to work effectively in the everyday environment of the education system. These graduates, working in diverse settings with diverse populations, will accept all students in the learning process and devise a learning environment that will enable each student to reach his or her potential. The Early Childhood Education (ECE) program is nationally recognized by the National Association for the Education of Young Children. The Bachelor of Arts in Elementary Education program was implemented in Fall 2013, and the first candidates in this program graduated in December, 2016. The Bachelor of Teaching Secondary Mathematics expects to have its first graduate in Fall, 2019. The Bachelor of Arts in Secondary English and Secondary Biology programs were approved for implementation in Fall of 2018. These programs have been designed to support and fulfill USCB's mission to "offer baccalaureate degrees which respond to regional needs, draw upon regional strengths, and prepare graduates to participate successfully in the local as well as global community." In addition, the DOE supports and models the USCB Core Values of integrity, collaboration, innovation, responsiveness, accountability, and excellence.
